eTEK Construction Systems

> **Top 5 Benefits per eTEK Customers**

1. **Designed <u>Specifically</u> for the Construction Industry**

   eTEK software: ● integrates a complete <u>*user-defined*</u> multi-phase project/job/phase/task tracking structure with a complete 4-seqment <u>*user-defined*</u> general ledger account numbering scheme ● at the most detailed level of source transactions (labor/material/equipment), this insures that ● project management/job cost reports ultimately correctly tie-in to financial reports; system includes ● WIP reports, billing & receipts (over/under billing) and audit trails that CPA's, bankers and bonding agencies demand; this insures timely release of construction funds. ● Extensive built-in reports are designed to facilitate supervision of both commercial and residential projects (including those for government organizations). ● On-demand, on-line, instant status of actual costs vs. estimates are included down to any level of detail desired. ● System computes "%-complete" per industry standards, and allows use of "estimates-to-complete". ● Payroll allows employees to work on any job, in any role, at any rate, across different states, during any defined period of time. ● Billing options include: A.I.A, contract billing, and the most flexible T&M billing in industry (if you can define how you want to bill, *eTEK* can do it). ● System manages change orders of all types.

2. **Superior Tech Support**

   Many *eTEK* customers have been using *eTEK* systems for over 30 years! They readily confirm their satisfaction with the quality of *eTEK* support. You are offered an easy way to form your own opinion during a FREE *GoToMeeting*™ web demo/informal Q&A session; you will be able to evaluate the level of knowledge, skills and expertise available to your organization. Your meeting will be conducted by the head of *eTEK's* customer support team, a professional full–time employee of *eTEK* (not a third-party sales rep or consultant).

3. **Easy-to-use**

   eTEK systems run on all popular versions of Microsoft Windows as well as current versions of Microsoft Office. *eTEK's* user interface and overall design provides an easy-to-navigate framework fully compatible with Microsoft Office. *Ease of use* is one of the most popular features of *eTEK*.

4. **Flexible**

   eTEK systems are based on an open, non-proprietary, relational database architecture. You can easily use *eTEK* for multiple divisions/departments. Unlike QuickBooks® and others, there are no practical limits on the number of customers, suppliers, and other records + flexible reporting.

5. **Scalable**

   Starting as small as a single desktop, you can grow as large as desired with *eTEK with no need to re-train users*, or convert to some "other brand" as your business grows. You can start with a single-user system, then move up to *eTEK* for Microsoft SQL Server (SQL is capable of supporting literally thousands of users).

   eTEK offers the long-term benefit of NOT out-growing your construction accounting & business management software?
